December 2008

***The 2008 Consumer Federation of California Scorecard for State Lawmakers*** rates legislators on their votes cast on key consumer rights bills. State Assembly members and Senators were evaluated on a number of issues, including campaign finance reform, financial privacy protection, health care reform, telecommunications subscribers' rights, assistance to low-income consumers, and safety standards for consumer products.

Lawmakers are graded on legislative proposals that the CFC sponsored, supported or opposed. We assessed final substantive floor votes. Committee votes were included in cases where important consumer bills died in committee.

Scores are based on the percentage of votes in which the lawmaker sided with consumers. A favorable vote from the consumer's standpoint is represented with an "R" (Right). A vote against consumers is noted with a "W" (Wrong). If a lawmaker was present and did not vote or abstained, the failure to vote is scored based on the effect that the non-vote had on the forward movement of the bill, and is designated with an asterisk (\*) after the "R" or "W". Failure to vote on a pro-consumer bill is scored as a vote against consumers (W\*), and failure to vote on an anti-consumer bill is scored as a vote for consumers (R\*). A dash (--) specifies either that a lawmaker was not a member of the committee being evaluated, or that the lawmaker had an excused leave of absence from the legislature for the day of a vote. Therefore, they were not scored.

The scorecard does not evaluate the Governor's record on consumer protection legislation. Many pro-consumer bills are killed in the legislature. Grading the Governor on the bills that reach his desk would not provide a valid comparison to the scores assigned to legislators.

We have included 2005 – 2008 cumulative scores. These scores are based on the annual CFC scorecards issued each year. Percentages represent the total number of right and wrong votes cast by the lawmaker during his or her tenure from 2005 through 2008.
